Background

Chapters 359 and 360 of 2008, *Criminal Procedure - Custodial Interrogation - Recordation*, established a State policy in which a law enforcement unit using one or more interrogation rooms with the capability to create audio and/or visual recordings of custodial interrogations shall make reasonable efforts to record interrogations of suspects in connection with cases of murder, rape, or sexual offenses in the first or second degree.¹

Chapters 359 and 360 of 2008 also requires the Governor's Office of Crime Control and Prevention (Office) to submit a report to the House Judiciary Committee and the Senate Judicial Proceedings Committee by December 31, 2009, and annually thereafter, as it relates to the progress of jurisdictions and the Department of State Police in establishing interrogation rooms capable of creating audiovisual recordings of custodial interrogations.

The Office makes funding available to local law enforcement agencies through the Byrne Justice Assistance Grant, Law Enforcement Technology grant program for "Custodial Interrogation Equipment." Additional funds have been made available through the Byrne Justice Recovery Act since the law was enacted in 2008.

Methodology

Using an online survey tool, the Office created and administered an interrogation room survey which was distributed to all law enforcement agencies in the State. Through this survey, the Office collected information on the following:

- 1. Agency name
- 2. Number of interrogation rooms
- 3. The hardwired technological capabilities of each room (none, audio, visual, or both audio and visual)
- 4. The portable technological equipment used in each room (none, audio, visual, or both audio and visual)
- 5. Did the agency have future plans for adding interrogation rooms
- 6. Did the agency have future plans for purchasing new audio/visual equipment for each room
- 7. The funding source for each room

Results

Number of Interrogation Rooms

All 137 law enforcement agencies received the electronic interrogation room survey. From this total, 44 agencies (32.1%) reported that they do not have an interrogation room; whereas, 93 agencies (67.9%) reported at least one interrogation room. It is important to note that the 93 agencies have a combined total of 304 interrogation rooms in the State.

The results of the electronic interrogation room survey found the Prince George's County Police Department to have the highest number of interrogation rooms in the State, with a total of 33 rooms (as illustrated in the <u>Appendix</u>). Of the 93 agencies that have at least one interrogation room, six agencies (Anne Arundel County Police Department, Baltimore Police Department, Baltimore County Police Department, Maryland State Police, Montgomery County Police Department, and Prince George's County Police Department) accounted for nearly half of all interrogation rooms in the State (145 rooms). As illustrated below, *Chart 1* provides a breakdown of the number of interrogation rooms by agency.

Audio/Visual Recording Capabilities

Of the 304 interrogation rooms in the State, 237 (78%) are equipped with some type of hardwired audio or visual recording capabilities. This represents a 4.8% increase over the 226 interrogation rooms with some type of audio or visual recording capability reported in 2018. Of

the rooms equipped with these technologies, the vast majority (92%) have both audio and visual recording capabilities. As illustrated below, *Chart 2* provides the various types of hardwired recording capabilities utilized within interrogation rooms in Maryland. Of the 93 agencies with at least one interrogation room, 38% (n = 35) use some type of portable audio or visual recording device in their rooms (*see Chart 3*).

Future Plans for Interrogation Rooms or Audio/Visual Recording Enhancements

Most of the agencies indicated no future plans for the creation or addition of interrogation rooms within their agency (87.6%). Furthermore, over 81% of agencies reported no future plans of purchasing new audio or visual recording equipment.

Funding Sources

Ninety-six agencies listed a current or future funding source(s) for their interrogation rooms. As illustrated below, *Chart 4* provides a breakdown of the various local, State, and/or federal funding sources.

Discussion

The major findings of the 2018 electronic interrogation room survey to law enforcement agencies include the following:

- Over two-thirds of Maryland law enforcement agencies have at least one interrogation room to conduct custodial interrogations.
- Over three-fourths of interrogation rooms are equipped with some type of hardwired audio or visual recording capabilities, many times both recording options are available.
- Sixty-two percent of all audio visual recording equipment in law enforcement interrogation rooms are stationary and cannot be transported.

• Most agencies have not indicated any future plans to add new or additional interrogations rooms or new forms of audio/visual recording equipment.

The Office will continue to provide support through the Byrne Justice Assistance Grant, Law Enforcement Technology grant for law enforcement equipment, and will provide annual updates on the progress of each law enforcement agency in establishing interrogation rooms capable of creating audio/visual recordings of custodial interrogations.
